REQUEST FOR PROPOSALS

Public Transit Provider For Hall County, Nebraska

A. BACKGROUND

Hall County, Nebraska is soliciting proposals from qualified agencies to provide operations and service management for demand-response public transit service in the rural area of Hall County, Nebraska. The contractor selected as a result of this proposal will operate rural transit services, and enter into a contract with Hall County, Nebraska.

It is Hall County's intent to retain a contractor to operate and administer a demand-response transit service such that nothing remains to be purchased, provided, or supplied by the County, other than what is noted in this proposal. It is the County's intent to enter into a three (3) year agreement with the selected contractor. The agreement resulting from this proposal may be renewed for two (2) additional years in one (1) year increments, culminating in the possibility of five (5) total years in operation. Adjustments in the reimbursement rate to the Contractor may be negotiated in the event that there is a change to the service being provided. The services provided with this proposal will be according to the following schedule:

Start-Up -September 8, 2026 – October 31, 2026

Partial Year Operations: November 1, 2026 - September 30, 2027

Year 1: October 1, 2027 - September 30, 2028

Year 2: October 1, 2028 - September 30, 2029

Year 3: October 1, 2029 -September 30, 2030

"Start-Up" is the time period allotted for the transit provider to hire staff, and acquire necessary equipment for operations, without actually operating the service.

The County will award an agreement to the most responsible and responsive proposer, based upon the evaluation of the County in coordination with the City of Grand Island, and approval by County Board of Commissioners.

Award of an agreement does not guarantee any number of rides for the duration of said agreement.

This Request for Proposal (RFP) does not commit the County to awarding a Transit Provider Agreement. Proposers shall bear all costs incurred in the preparation of the proposal and participating in the proposal process. The County reserves the right to withdraw the RFP at any time, reject any and all proposals, to waive technicalities, in its sole discretion to accept a proposal or proposals, and waive minor irregularities or negotiate changes to the proposals whenever such is determined to be in the best interest of the County. The County further reserves the right to seek new proposals when reasonable and in the best interest of the County.

AI. Statement of Financial Assistance: Funding for Hall County's public transit service may include Federal Transit Administration 5311 funds, County funding, and service fares. There are various clauses and requirements, as part of these funding programs.

B. SCOPE OF PROJECT

81. Hours of Operation: Hall County provides a demand response public transit service under the following parameters:

- Office Days and Hours:

Monday through Friday, 7:00 am - 5:30 pm

Seven holidays are observed when service is not available:

New Year's Day

Christmas Day

In the event of a snow or weather emergency, transit service will not be available if any rural Hall County public schools (including Centura Public School, as the primarily serve Hall County residents) are closed due to weather conditions. This does not include if the public schools close for temperature, only inclement weather which makes transportation dangerous. The transit provider must develop an approval process for cancellation, to be approved by the County for the days which inclement weather occurs on a day which public schools are not in session. In the event of multi-day snow or ice issues, the contractor shall work with the County to identify if service needs to be limited to snow emergency routes until safer travel is deemed possible.

Hall County strives to improve the quality of life for residents, particularly those unable to drive or without access to transportation, by providing a reliable demand-response service to help meet their needs. For this reason, the Hall County will provide the service in an efficient and cost-effective manner, while serving as many residents as possible. Fares are currently \$2.00 for a one-way trip. The County reserves the option to reevaluate the fare level.

The transit provider is responsible for creating and implementing a Transit Employee Manual, Financial Policies and Procedures, and a Passenger Handbook. The Passenger Handbook must outline policies for enacting minimum age for ridership without an accompanied adult; which is *twelve (12) years of age*. The transit provider may enact a child ridership policy for younger riders if the transit provider has the capacity to do so.

82. Service Area Description: Hall County is located in the south-central area of Nebraska along the 1-80 corridor. Hall County is growing and currently has a rural population of approximately 9,000 residents. Population forecasts indicate that a healthy pace of continued growth is expected. Geographically, the County encompasses approximately five-hundred and fifty-two (552) square miles.

Note the service area covered in this RFP includes entering into the Urbanized Area of Grand Island. The service area is depicted in Figure BI. The transit provider will be responsible for providing trips to rural passengers into and out of the Urbanized area of Grand Island, as long as the trip originates and terminates in the Rural Zone. Additionally, rural riders may make urban only trip legs off of the original rural trips.

- Supervision and management of drivers and other personnel; and

All of the aforementioned costs are the sole responsibility of the successful transit provider and must be included in the proposal cost.

B7. Performance Standards: The transit provider must thoroughly examine and will be held responsible for the reading of the entire Agreement (Attachment I.) A transit provider's failure to acquaint itself with said document before submission of a proposal will not be a basis for disputing any action once under agreement with the County.

B8. Insurance: The successful transit provider shall purchase and maintain continuously, throughout the entire term of the Transit Provider Agreement, insurance coverage meeting all of the following requirements:

Service Related:

1. Obtain and maintain for the applicable agreement term insurance on each vehicle against all risks of loss or damage in an amount not less than the replacement cost of the vehicles, without deductible and without co-insurance,
2. Obtain and maintain for the applicable agreement term, comprehensive liability insurance covering personal injury of at least \$1,000,000 per person and property damage of at least \$1,000,000 per occurrence, and such insurance shall otherwise be in a form and with companies reasonably satisfactory to County. Provider shall designate County, as their interests may appear, as loss payee on property insurance, and shall designate County additional insureds on liability insurance. Provider shall pay all premiums for such insurance and cause delivery to County of certificates evidencing such insurance in effect through the agreement term identifying the vehicle identification number of each vehicle, as applicable, along with, if requested by County, evidence satisfactory to County, of the payment of the premiums for such insurance. All insurance shall provide for at least thirty (30) days advance written notice to County before any cancellation, expiration or material modification thereof. Provider shall deliver prompt written notice to County of (1) loss, theft, or destruction of any vehicle, (2) any damage to any vehicle exceeding one thousand dollars (\$1,000), and (3) any claim arising out of the ownership, operation, maintenance, or use of any vehicle. subject to the applicable agreement term. Liability coverage shall include coverage for loading and unloading passengers.

B9. Management: The successful transit provider shall provide qualified management to oversee the operation of transit services. The level of management shall be sufficient to ensure the successful operation of the transit program. Management shall immediately notify the County of any problems that may prevent successful operation of the transit program. The transit provider will work directly with the State of Nebraska on Hall County's behalf for obtaining Section 5311 Rural Transit Funding and doing drawdowns. The transit provider will also make use of amenities the State provides such as Title VI assistance and Drug & Alcohol testing. The transit provider shall also present a quarterly financial report to the Hall County Board of Commissioners.

B10. Internal and External Communications: While all personnel must be properly and adequately trained to deliver services required by this agreement, there is no substitute for clear and concise internal communication. This is particularly true between management, drivers and dispatchers. While good working knowledge of local geography is critical to all aspects of this service, the relaying of critical rider information between drivers and dispatchers/supervisors is vital to good service for transit riders. Direct two-way communication between vehicles and the dispatch office will be required at all times when vehicles are operating on behalf of the County under any agreement.

B11. Program Administration and Oversight: The County has overall responsibility for oversight of the transit program. No guarantees or minimums in trip volume will be made as part of any agreement. B14. LB403: Every proposer and their subcontractors who are awarded an agreement by the County for the physical performance of services within the State of Nebraska shall register with and use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska.

B15. County Fiscal Year: Hall County operates on a fiscal year beginning July 1 and ending on the following June 30.
